From the Boston Daily Advertiser. The Charge of the Light Brigade at the Buttle of Talavera.

The charge of the British Cavalry at I. O. Balaklava has been described as without precedent or parallel in military annals. It is curious that attention has been directed to a previous example of a similar nature and consequences, occurring in the story of the famous field of Talavera. The facts were these, as narrated

A brigade led by Col. Anson, consisting of the 23d Light Dragoons, and the 1st King's German Hussars, was ordered to charge and check the advance of a vale of the Merrimack, with their wild the fugitive slave act clearly gave him the French columns opposed. Its loss was awful. In an affair which lasted but a few minutes, nine officers, twelve sergeant, two hundred rank and

Over DA new Division of the Sons of cognomens; and last and greatest of all, cers for the present quarter: the Justits: each having its General at Rome, and all having the pope for their supreme head. This double net work of Popery is thrown over the world, involving all its inhabitants in its interminable meshes. This stupendous and universal conspiracy, moved by its supreme head, is ceaselessly and everywhere striving to subjugate all the individuals, families, and nations of the race of man, to the despotism of Rome. And especially is it brought to bear on these United States-antagonistic to their institutions and their liberties.

The people of the United States are engaged in a contest that began three hundred and fifty years ago. The warfare was begun by our forefathers, eenturies ago, in Europe. It was first against Pope and Emperor; then against King and Bishop; and, now, in this new world, it is against Priest and Mob!-a strife for freedom of conscience; freedom of thought; freedom of speech; and freedom of the Press.

This is a Protestant country. It was Protestant in its settlement, and has been Protestant in all its progress, and by the help of God, said the speaker, it shall remain a Protestant country. To the fact, that from the beginning it has been Protestant. it owes its freedom, its civilization,

and all its greatness. There are three things of paramount value and importance to this countryits Protestant eivilization; its Union; and its Nationality. Its civilization, the source of all its social blessings, is exclusively Protestant--founded on the Protestant Bible, and derived from a glorious of the opposers of the American ticket. it. A GUN FROM OLD VIRGINIA!

The latest intelligence from the old Dominion is very cheering, and verifies the opinion we have long entertained of that glorious old State. Notwithstanding the fact that Wise, and the Roman Catholic hierarchy, are struggling to fasten Popery upon the State, the city of RICHMOND, the strongest Democratic city in the Union, has given the American ticket a majority of one thousand five hundred, at the late municipal election! Huzza for old Richmond! and down with Popery and Wise!

The American ticket also succeeded in the city of Lynchburgh. All accounts from Virginia are favor-

Sacibaker, the Papistex-Mayor in trouble--Startling Disclosures! When, in the recent election at Cin. cinnati, the ballot-box of the Eleventh Ward was destroyed, our readers will remember what a howl of rice indignation was raised by the Papal organ of his Holiness, the Pope, (Enquirer), seconded by the Papal-abolitionist whines of the Commercial, about the outrage on the glorious right of suffrage, &c., and how the occupants of all the 'Sag Nicht' kennels took up the hue and ery. How the poor 'lousy, godless, Christless set,' as Mr. Wise calls the K. N's, did catch it! A good old farmer, who hadn't been to town for six months, and didn't know anything about the new planet that has become a 'fixed star' of the first magnitude in the political firmament, chanced to pick up a 'Sag Nicht' paper, and read the wonderfully horrid doings of the 'Hindoos' (as the 'invisibles' are derisively styled,) in Cincinnati. His patriotic blood instantly arose twenty degrees above fever heat, and he exclaimed from depths of his democratic heart, "Well, these furriners ought to be driv from the country!

Suit for Damages.

That filthy Papal print, the Cincinnati Commercial, is reaping the fruits of its treacherous and incendiary course in the late election. It has lost the support of all the true Americans in Cincinnati, and judging from its whining tone, we should think that it is too filthy for even the papists to swallow, to whom it is said it has been sold. It is now on its "last legs," and, in order to make up the deficiency in his empty pocket, the Commercial proprietor has instituted suit for libel against The Halifax Chronicle, of the 1st the proprietors of the Cincinnati Times. cruits gathered in the U. The experiments, which will be made in Paris, will be on a small scale, and the flights of Don Diego will not extend beyond the department of the Seine; but at a later period he proposes to go to Lyons, Bordeaux, Toulouse, Marseilles and Tours, and to take the lines of railway. He pretends that he can travel quicker than by rail. The price of each machine will not exceed 1,200f. for men; and 1,000f. for women. If the experiment succeeds, Don Diego will take out a patent and make the sale of the machine a branch of commerce. Although greatly astonished at this new invention, several members of the academy have pointed out the inconvenience of bringing it into general use. In point of fact, there will be no security for any one, if by the aid of such machine all our usages and customs be overthrown, and if malefactors can fly on the roofs of houses, and afterwards get into apartments and commit all sorts of depredations. "But those cats, in our opinion, are in danger, and we warn all who have any interest in them, either present or in expectancy, to look to them. We have been constrained to watch for hours, when we ought to have been asleep .-We have heard the clock strike twelve, one, two, at intervals in their performances, and have been tempted to the use of terms not to be found in any religious work, or any of the standard sermons of the day. We have dropped brickbats among them, wasted more wood upon them than we are able to spare, have taken cold by the exposure to the night air, become hoarse by hallooing 'Scat!' We have exhausted our lonse pieces of brick, the smaller sticks of our woodpile, and our patience. In view of all these facts we submit there is nothing left for us but to move ourself, or move those cats, and we shall not move. We have prepared a double-barreled gun, a full supply of the complete of the c bird shot, with the necessary quantity of powder and percussion caps, and in our opinion somebody's cats will go home some moonlight night, complaining of

J. II, BURROWS' PATENT PLANTATION CORN MILL.

Tills Mills a square frame made of wood, or cast iron, in the form of a husk, with bridge-tree, spindle, Balance, rine, driver, and regulating screw, and grinds apon the same principle as a large mill, differing only in the runner stone; this being of great weight, enables it to grind, near the center, a larger quantity of grain, with less power, than any other mill now in use. This mill is portable, and may be attached to steam, water, horse, or hand power.
